ACADEMIC COURSES

Programming and Algorithms

Structural Programming, Object-Oriented Programming, Data Structure & Algorithm

BRAC University

Database Systems

Relational Database, MySQL, SQL, Normalization, Transaction Management, Indexing

BRAC University

Software Engineering and System Analysis and Design

Software Development Life Cycle, Agile Methodologies, Software Design Patterns, Testing

BRAC University

Cloud Computing

Virtualization, Cloud Architecture, Linux CLI, Deployment Models, Security in Cloud

BRAC University

Programming for the Internet

WWW, HTTP Protocol, Web Securities, HTML, CSS, JavaScript, PHP, MySQL, AJAX, Understanding of Frameworks

BRAC University

PROJECTS

Project 1: Unsupervised Neural Network for Multi-Genre Music Generation

A deep-learning project for unsupervised music generation using autoencoders, VAEs, transformers, and RLHF-style tuning.

Python PyTorch Jupyter Notebook TeX

Project 2: JaboKoi

A mobile app with an Android client and FastAPI backend.

Kotlin Python FastAPI

Project 3: VangtiChai

An Android change calculator for Bangladeshi Taka with adaptive layouts.

Kotlin Android

Project 4: MyPage

EDUCATION

B.Sc. Computer Science

BRAC University

Jan 2022 – Ongoing

Credit Completed: 93

HSC -Science

Dhaka Imperial College

June 2018 – Feb 2020

SSC -Science

South Point School and College

Jan 2016 – Mar 2018

LIFE MOTO

"In his version pf the story, He saves everyone."

SKILLS

MS Office Hard-working Organizer
Deadline Maintainer

CODING LANGUAGES

Python HTML CSS PHP MySQL
JavaScript C LaTeX Linux CLI

LANGUAGES

English ● ● ● ● ●
